

AIRLAB SUBANG

EASA PART M AWARENESS

Explains the EASA regulations related to the continuing airworthiness of aircraft, including maintenance planning, record-keeping, and compliance.

Introduction

EASA Part M outlines the responsibilities and requirements for maintaining the continuing airworthiness of aircraft. This course provides participants with a detailed understanding of Part M, focusing on the roles and obligations of aircraft owners, operators, and maintenance organizations. The course covers maintenance planning, airworthiness directives, and the importance of thorough record-keeping and compliance monitoring. It is essential for those involved in ensuring that aircraft remain safe and airworthy throughout their operational life.

Course Objectives

To ensure participants are aware of their responsibilities under EASA Part M for maintaining aircraft airworthiness.
